Las Vegas resort named USA's most luxurious

If you need evidence that Las Vegas is *the* destination for travellers with discerning tastes, The Signature at MGM Grand was recently voted the No. 1 "Best Luxury Hotel in the U.S". The web's largest travel community, Trip Advisor's 2008 Traveller's Choice Awards also recognised The Signature among the "Top 100 Best Luxury Hotels in the World" and the "Best Hotels in the World's 25 Most Popular Destinations."

Many long-standing properties on the Las Vegas Strip are investing millions in tower expansions but when the third tower opened late-2007, The Signature became the first-of-its-kind hotel concept in Las Vegas. Guests of The Signature can expect 'the best of both worlds' – the ultimate in personal service and exclusiveness just moments from the non-stop action of the Las Vegas Strip.

The Signature is an entirely non-gaming and non-smoking hotel – both unique for a Las Vegas property. Other features include:

- A private gated entrance
- 300 thread count Anichini Egyptian cotton sheets
- Marble and granite bathrooms featuring flat-screen TVs and Jacuzzi-brand whirlpool spa tubs
- Ultra-thin LCD flat-screen, high definition TVs
- Balconies in most rooms with panoramic views of the Strip and surrounding mountains
- Sub-Zero, Miele and Bosch kitchenette appliances
- Each tower has a pool complex including private cabanas, Jacuzzi and bars.

The completion of The Signature is part of the record-breaking growth and investment across the Las Vegas. There are currently more than US\$30 billion in projects under construction or in planning stages which will add approximately 38,600 new hotel and motel rooms to the city's inventory between now and 2010. Notable properties opening in 2008 include *The Palazzo*, *Trump International Hotel and Tower* and the second tower at Wynn Las Vegas *Encore*.

Rates at The Signature begin at US\$200 for a junior suite; US\$300 for a one-bedroom suite; and US\$510 for a two-bedroom suite. For more information visit www.signaturemgmgrand.com.
